

Dr. A.P.J. Abdul Kalam visits RRCAT

Dr. A.P.J. Abdul Kalam visited RRCAT on Oct.3, 2007. He visited Indus-2 synchrotron facility and an exhibition of various technologies developed in-house at RRCAT. He also addressed the RRCAT staff members in a packed auditorium. His inspiring speech brought forth a standing ovation from the staff members. In the Visitor's Book, he wrote *"Inspired to visit RRCAT. An excellent scientific and technological system has been developed including Indus-2. Indus-2 is indeed a technological marvel for generation of radiation for multiple spectrum experiments. I congratulate RRCAT team, for excellence and I am sure RRCAT will also contribute in realizing Atomic Energy mission: Thorium nuclear reactor"*. Some pictures of his visit are reproduced.
