

## **N.6: First aid and fire-fighting training at RRCAT**

First Aid Fire-fighting Training to employees of any organization is a tool to reduce the loss of property and life of human being of the organization significantly. Most of the fires start from a small size and may convert into big inferno if neglected for some time. When fire is in small size, it is very easy to control/extinguish it by means of portable fire extinguishers by a single person. Employees of any organization, trained in first aid fire-fighting are the boon to that organization in respect of sustaining the progress, prosperity and development of that organization.

RRCAT Fire and Safety Cell imparted First Aid Fire-fighting Training to 72 employees of RRCAT and 32 CISF personnel during July 2016 to December 2016. Some glimpses of the training are shown below:

*During lecture on first aid and fire-fighting training to RRCAT employees*

*Practical demonstration of first aid and fire-fighting training to RRCAT employees*

*Practical demonstration of first aid and fire-fighting training to Trainee Scientific Officers (TSOs)*

*Practical demonstration of first aid and fire-fighting training to CISF personnel*

Shri Rajesh Joshy, Brigadier & Commander, Weapons and Trials Wing, The Infantry School, Mhow was the Chief Guest of concluding day function. Dr. P. D. Gupta, Director, RRCAT, many senior officers and employees of RRCAT appreciated the concluding day functions which included demonstration of rescue and fire-fighting techniques pertaining to high rise buildings. The Chief Guest distributed prizes to the winners of various competitions.
